Vehicle: Dodge Ram truck, original color gray, covered with flat black covering (like bed liner), VIN: 1D7HU18075S213744, NIF.

License Plate, Michigan, 7LY-T45, comes back on a 2010 Cadillac.

Owner: Israel Castillo-Sosa ( license plates), 1461Merrill Ave, Lincoln Park, Michigan 48146

I observed the above listed vehicle traveling w/b on First Street. It drove around the road closed signs and barricades and traveled through the high water. A traffic stop was initiated for the violation and the vehicle was stopped. The driver did not speak english and handed me a passport when I asked for his driver's license. I needed help in identifying him, so I had Border Patrol respond to assist me. Once they arrived they helped identify the driver as Michael Andres Castellon Heriera and determined his VISA had not been stamped. They then took him into custody for possible deportation. He was given a written warning for the violation. None of the passengers in the vehicle had driver's licenses, so the vehicle was towed by Luckey's Towing. An inventory was completed on the vehicle. The passengers were given a ride to the bus station per their request.

I responded to the First Street area to check out the reported high water. Prior to my arrival, Ofc. Hill had the street department close the road with signs and barricades. While in the area I observed the listed vehicle traveling w/b on First Street. The driver ignored the signs and barricades and went around them at both ends of the closed road. Once the vehicle reached me, a traffic stop was initiated for driving on the closed road. I approached the driver and he told me in Spanish that he did not speak English. I could make that much out, but not the rest of what he said. Two female passengers also indicated they did not speak English. When I asked the driver for his driver's license he looked confused and handed me a passport. A little while later he handed me a second document which was in Spanish and I could not read it. I called Border Patrol and asked them for assistance in identifying the driver. Border Patrol Agent Alexander Chavez responded to assist me. The driver was identified as Michael Andres Castellon Heriera from Bogota, Columbia. There was no stamp on his visa and Agent Chavez told me they may have to take him in custody for deportation. The second document was found to be his international driver's license, according to Agent Chavez.

The license plate on the vehicle came back to a 2010 Cadillac to a Israel Castillo-Sosa from Lincoln Park, Michigan, however the vehicle was actually a large Dodge Ram 4 wheeled drive Truck. The truck had a hard flat black covering on it, like a bed liner material. Some of this material was chipped off and the vehicle appeared to have an original color of gray. When talking with Castellon Heriera I saw that the insulated liner for the roof had a section cut out with a sharp object and this looked peculiar to me. The area around sun roof was loose and I suspected this area could of been used to possibly hide contraband. Agent Chavez then verified that he would be taking Castellon Heriera into custody. Castellon Heriera asked that the vehicle not be towed and said he would have someone pick it up. He was told that it was not legally parked and it would be towed. This was after he said neither passenger had a driver's license. He became nervous at this point and I saw his hands shaking. He then called someone with his cellular phone and talked with them in Spanish. I gave Castellon Heriera a written warning for driving on the closed road.

Agent Chavez identified the back seat passenger as Evelin Mariana Lopez Miranda, who was originally from Columbia, but was now living in Detroit, Michigan. The front seat passenger was identified as Angie Marcella Nino Bonilla, also from Bogota, Columbia. Both females asked for a ride to the bus stop and were given the ride by Ofc. Makayla Cook. Even though an inventory

was going to be completed on the vehicle, I still had suspicions about the cut roof liner, so I asked dispatch if a police K-9 was working. They advised Ofc. Bauman from Perkins Pd. was working and he was sent to my location. His K-9 Thor alerted on the vehicle by the rear driver's side door. He said his K-9 seemed interested in the area for the whole length of the door. Ofc. Hill and myself began searching the vehicle and immediately noticed some suspicious areas. I saw that the area above the gas tank was cut out on the floor in a square and crudely welded, once the loose carpet was pulled up. The back seat area on both sides had areas cut out and welded shut behind the doors. I could see in slightly into these cavity areas but not completely, with a flashlight. It was suspected the vehicle had possibly been altered to haul contraband. Due to this I had Lucky's Towing tow it on station. Initially we could not find a VIN number on the truck, as the coating covered the VIN plates on the inside of the doors. Evidence tape was also put around the vehicle.

On the morning of 6-10-2019 the VIN on the dash board was seen from the outside of the truck. It was run by dispatch and came back NIF. I then talked with Detective Brotherton about possibly getting a search warrant to check the vehicle further. He was also given Agent Chavez's cell phone to see if he had additional information about the owner of the truck, this being PS # 419 370-9616.

On the afternoon of 6-10-2019 a subject who identified himself as Israel Castilo-Sosa called inquiring about his towed truck. He said he had recently transferred the plates from his Cadillac to the Dodge truck. He said it was his "project vehicle" that he had worked on himself. Israel said he was in San Diego, California and couldn't pick up his truck himself. He said he would send someone else to come get it. He wanted to know if there any other issues with this matter and I told him there was not. I told him he should call Lucky's as they couldn't tell him if someone else could get his truck or not. I also pointed out that they would need proof that the truck belonged to him. He said he had the necessary documents to show he was the owner. He was given their phone number.

I called Lucky's Towing and the woman answering their phone said she would send someone to the police station to remove the truck from our garage. As of 1030 hours on 6-11-2019, Lucky's had still not responded to our station for the truck. I called them back and this time the lady assured me they would be down to get to the truck today. I told her that if they weren't here by noon I would call another company to get it.
